Skills

React.js, Redux, Python, JavaScript, Express, Node.js, Flask, HTML5, CSS3, SQL, postgresSQL, AWS, Heroku, Webpack

Projects

InstantaneousGramme

[live site](#) | [github](#)

JavaScript , Python, React / Redux , Flask, postgresSQL , CSS3 , AWS , Heroku , Docker

A social media platform for users to share their photos with the world.

- Implemented boto3 presigned posts to reduce server load by uploading user images directly to AWS s3 from the front-end.
- Implemented custom search using redux to improve backend performance.
- Designed and Implemented RESTful API schema to streamline future application development.

PantryStock

[live site](#) | [github](#)

JavaScript , Python, React / Redux , Flask, postgresSQL , CSS3 , Heroku , Docker

A shopping list, pantry inventory, and meal tracking web application.

- Designed an intuitive, responsive UI to provide users a seamless experience while creating and interacting with their shopping lists on mobile devices.
- Secured user data by implementing Flask-Login and the React Router to ensure users can only view and manipulate their data.

OpenCarts

[live site](#) | [github](#)

JavaScript , React / Redux , Express, Node.js postgresSQL , CSS3 , Heroku , Webpack

A reservation platform for users to book reservations at local food carts.

- Employed JSON Web Token and bcrypt.js to ensure secure user authentication and that passwords are not stored as plain text.
- Implemented lazy loading of food cart components when browsing to reduce page load time.
- Incorporated react best practices and component design to create a repository of components that are implemented on various pages of the application.

Blueprint

[live site](#) | [github](#)

JavaScript, postgresSQL , CSS3 , Heroku , Webpack

A project management application

- Leveraged AJAX to produce a seamless single-page application for users to track the status of various projects.

Experience

Project Administrator | June 2018 - August 2020

Ross Island Sand & Gravel Co.

- Administered contract provisions and ensured timely processing of billing, payroll, and release documentation on construction contracts valued up to \$20 million.
- Corresponded with project owners and engineers through submittals, RFIs, and change orders to ensure contract compliance.
- Created and maintained project schedules to communicate realistic project delivery dates to stakeholders.

Cashier and Cook | April 2014 - October 2017

Cheesy Stuffed Burgers

- Provided excellent customer service in a fast-paced work environment

Education

App Academy | Oct 2020 - March 2021

Immersive software development course with focus on full stack web development

Oregon State University | Spring 2018 | Corvallis, OR

BS, Construction Engineering Management
